DISPATCH SERVICE UNIQUE COMPETITIVE ADVANTAGES

We Dispatch the Hypersonic Way!

When you work with us, you will earn more profit be in a position to pay your drivers more, which helps with retention. Our unique dispatching process saves time, money and miles. Our competitive advantages include:

1. A Personal Dispatch Assistant

Each driver has a person virtually traveling with them along the route for each load. From the moment of dispatch to the submission of documents to the factoring company – they are never alone. The Personal Dispatch Assistant is can be reached by phone or text to assist with finding the cheapest fuel to receiving and submitting documents. They can help with rerouting because of traffic or weather to ensure that your drivers arrive safely and on time.

2. Strategic Load Booking – We call it the “Hypersonic Way”

Because we book loads in advance, we often get higher rates which means higher profit and paydays for your drivers. Drivers will be provided a list of options for fueling along their route and sometimes, we will spot a deal and suggest refueling not for the sake of filling the tank, but because the gas station is along the route and will save \$0.50 or even \$0.79 cents per gallon. We are always looking for the best fuel rates.

When we look for loads, we begin with the point of origin and jump right in looking for and negotiating with Brokers that are within our superior network and have a history of being reputable. We only work with Brokers with a CS rating of 90 and above that pre-approved by our factoring company to ensure that there will be no issues related to invoices being paid.

3. 3% Invoice Factoring

Each load we book is eligible to receive our discounted invoice factoring rate of 3% offered by our factoring partner, which can significantly increase your company’s cash flow. There are no hidden fees and funding can take place in as little as 24 hours with quick pay options available. Our top-notch factoring partner provides excellent services and offers peace of mind to our carriers as they won’t have to worry about expenses prior to being paid by shippers.

4. Trip Cover Sheet

One of the things we do well at Hypersonic Trucking is keep drivers on top of their paperwork and documenting the facts. We developed a checklist called a **Trip Cover Sheet**. With each load that we dispatch, the Personal Dispatch Assistant will complete the top portion of the form that includes the load details and sends it to the driver before the trip begins. The driver will use this handy tool along the route to communicate details and ensure that all BOLs, receipts and expenses related to pick up and delivery are collected, submitted and totals relayed accurately. Information such as the in and out times are often missing from the BOL. But when this form is completed, it provides an accurate snapshot of what took place with each load.

5. Monthly Truck Reports

We want to make it easy for you to keep an accurate record of every trip we dispatch. Each month, for every truck that we have dispatched will receive a monthly truck report. This will show you the number of loads we dispatched, rate per mile, total miles and empty miles. We recognize that empty miles mean greater fuel costs and increased carbon emissions. In an effort to help you run your business more efficiently, we provide this report to you each month at no additional charge.

6. Quarterly IFTA Reports

Each quarter, for every truck we dispatch, you will receive a Total State Mileage Report. When fuel information if available, we will also include this on your report. Our goal here is to help you stay organized and save time and money when preparing to your company’s quarterly filing.

We are proud of our unique competitive advantages and work hard to continually find ways to save you time and money while helping you earn more per load.
